BOMBARDING ADRIANOPOLE

Bulgarians Make Determined Efforts to Dislodge Turks from Their Stronghold.

Mustapha Pasha, Friday, Nov. 22, 11:50 A. M.—A general bombardment of the defenses of Adrianople, preparations for which have been in progress for some time, began at 2 o'clock this morning, when suddenly the stillness of the extremely dark night was broken by the majestic thunder of hundreds of big guns around the beleaguered city, the deep-throated growl of the siege guns, heard amid the road of the field guns, the crack of bursting shrapnel and the quivering rattle of the magazines—the whole making a bewildering medley of sound.

Meanwhile, the searchlights on the Turkish forts lighted the clouds, circling in flashes as they swept the horizon in an endeavor to determine the position of the Bulgarian batteries. The rays of the Turkish searchlights crossed and recrossed those of the Bulgarians in inextricable confusion and the sky was lighted up as if by an almost continuous display of summer lightning, accompanied by the sharp bursts of flame from the guns on every side.

The grandiose effects of the spectacle upon the visual and auditory senses were further accentuated by the reverberation of the siege guns, which made the mountains encircling Adrianople tremble to their very foundations.

Noncombatants who witnessed the bombardment were thunderstruck by the terrifying exhibition of the forces gathered by man for the destruction of his fellow men.

The score of forts defending the beleaguered city of Adrianople were overwhelmed by the rain of shot and shell, which reached its mark with almost mathematical precision, producing fearfully destructive results.

In the darkness of the night the Turkish forts could not be seen, but the Bulgarian guns had been carefully trained as a result of trial shots during the preceding afternoon, and the shells had a terrible effect. Indeed, from time to time, the flashes of the searchlights revealed gaping holes in the masonry of the Turkish forts and lighted up the clouds of flying debris as the shell rained in upon the defenders of Adrianople.

From every quarter death-dealing shrapnel was bursting continuously over the Turkish positions, while the short, squat mortars hurled their

heavy projectiles into the air. Each one blew into fragments every thing within its path.

The Turkish artillerymen apparently were at a loss as to the position of the Bulgarian batteries, whereas the situation of each fort and redoubt was well known to the attackers, while the fire of the defenders was a matter of guess work. As the Bulgarian guns had been adroitly masked, even in daytime the position was invisible.

The cannonade proceeded with relentless activity during the entire night, the effect upon nature being found in an almost continuous downfall of rain from the clouded sky.

Now, at 11 o'clock in the morning, there is a slight lull in the bombardment and the Turkish fire is erratic and obviously weakening.

It is extremely doubtful if Adrianople will be able to hold out many days longer. Once the fortress is in the hands of the Bulgarians, they will be in a much better position to dictate terms of peace.

Second Darrow Trial

Los Angeles, Cal., Nov. 23.—Monday is the day set for beginning the second trial of Clarence S. Darrow, who was chief counsel for the defense in the McNamara dynamiting cases. Mr. Darrow is to be tried on an indictment charging him with the bribery of Robert E. Bain, a juror in the McNamara trial. Some months ago he was tried on an indictment charging a similar offense and acquitted.

ROOSEVELT'S ASSAILANT DECLARED INSANE

Milwaukee, Nov. 22.—The commission of alienists investigating as to the mental condition of John Schrank who shot Colonel Roosevelt today reported unanimously that he was insane.

Conclusions reached by the commission are as follows: "First John Schrank is suffering from insane delusions, grandiose in character and of a systematized variety.

"Second, in our opinion he is insane at the present time.

"Third, on account of the connection existing between his delusion and the act with which he stands charged, we are of the opinion he is unable to confer intelligently with counsel on the conduct of his defense.

Signed: Richard Dewey, M. D., Chairman; W. F. Becker, M. D., D. W. Harrington, M. D., Frank Studley, M. D., Wm. F. Wegge, M. D., Commissioners.

Schrank, pale but not excited, listened intently to the reading of the alienists' report. It consisted of several thousand words and started out by setting forth the personal and family history of the defendant. Other portions of the report bore upon the present physical state of the prisoner, neurological data and wound up with many exhibits consisting of numerous written communications of the defendant.

Who Will Get Vote of California?

San Francisco, Cal., Nov. 23.—Seventeen days after the National Presidential election the question whether Wilson or Roosevelt carried California was tonight in a worse tangle of legal complications and threatened lawsuits than at any previous time.

Progressive leaders, disappointed by a court decision in Los Angeles invalidating totals for electors in precincts where the election judges had thought to save time and trouble by not putting down tally marks for an elector, except the top one on each ticket, took heart today and decided to institute like proceedings in all

the counties of the state which showed ap luralty for Wilson.

This prospective action was announced following receipt in Los Angeles of a telegram from Gov. Johnson at Sacramento, beginning: "It is reported in the press here that the Progressives are going to quit." The telegram urged the contrary attitude.

Secretary of State Jordan reiterated today his declaration that if the recount in Los Angeles County ran over Nov. 25, the date provisionally set by law for certifying returns from the state as a whole, he would wait until Los Angeles County reported. In this he is understood to have the support of an informal opinion from the Attorney General's office, but if proceedings promised by the Progressives necessitate recounts in very many counties it became a question ton ght how long Jordan could hold off.

Among the counties in which contests are promised by the Progressives are Sacramento, Alameda, San Francisco, Humboldt and Del Norte.

Cuban Election Disputed.

Havana, Nov. 23.—A National Liberal Assembly convened in Havana today to take steps to dispute the legality of the recent election in which Gen. Mario Menocal was elected president of the republic. The assembly is composed of followers of Alfredo Zayas, who was a leading opponent of Gen. Menocal in the latter's contest for the presidency.

STATES MUST PAY SHARE OF BUILDING ROADS

Washington, Nov. 23.—The \$500,000 appropriated by the last session of Congress for improvement of roads will be distributed equitably among the states that co-operate with the federal government in this work.

The question has been under discussion by the cabinet and it has been agreed the amount shall be allotted among all the states on the basis of \$10,000 to each state that agrees to spend on its part \$20,000 of its own funds. It is anticipated that a number of states will not be able to raise the required amount.

SNEAD TRIAL MAKING GOOD PROGRESS

Fort Worth, Tex., Nov. 22.—The defendant, J. B. Sneed, now being tried here the second time for the killing of Capt. A. G. Boyce Sr., may go on the witness stand tomorrow in his own behalf and relate the details of the tragedy and the events preceding it. The defense examined ten of its witnesses today and rapid strides were made in the trial.

Part of the morning was consumed in argument, but aside from that there were no interruptions.

Henry Bowman Jr., one of the most important witnesses heard during the trial, was on the stand the greater part of the afternoon. He is Sneed's brother-in-law and was closely associated with him in the incidents preceding the killing and was standing at the cigar case in the Metropolitan Hotel when Capt. Boyce was shot. He took the pistol from Sneed after the shooting and was instructed to bring it into court tomorrow.

Mr. Bowman's description of Sneed's home life prior to the trouble and his story of how the two children grieved over the absence of their mother after she ran away, was very vivid. The younger girl, he said, was in the habit of climbing on the bed at night and taking her mother's picture from the wall and kissing it and of begging her father to go and bring her mother back home. When this incident was related, some of the jurors shed tears. Mr. and Mrs. Bowman kept the children at their home at Plano from the day Mrs. Sneed was first placed in the sanitarium in October, 1911. Mr. Bowman's testimony varied but little from that given at the former trial. He will be on the stand again in the morning.

The Muskogee Times-Democrat says that among the plums that will be at President Wilson's disposal when he takes office will be the appointment of chiefs for the five civilized Indian nations. Such announcement will likely start a stampede among those eligible.

GROWTH OF THE INTERURBAN.

It has been only a few years since the first electric interurban line was put in operation, but today a regular network of these roads has been constructed, although the movement is still in its infancy. Texas is rapidly forging to the front in construction, and Oklahoma will soon be following the good example. It will be only a few years until Ada will be the center of a system of these roads and every community in Pontotoc county will be in easy reach of the county seat. It may be a little slow in coming, but past history shows that this is no idle dream.

THE FRENCH PRESIDENCY.

It is only a month or two until another president of France is elected. However, there is no racket about the matter and no sky rocket oratory. The French president is chosen by the parliament, and not by the people as in this country, and a presidential campaign is usually a sort of still hunt among the several hundred members of that body. When

elect the president finds himself a sort of figure head, having little to do except put on a big display and entertain lavishly, thus gratifying the vanity of the nation. However, he is well paid for his part, receiving \$240,000 per year. The presidential term in France is seven years, but only one Loubet, served out his term since the establishment of the republic forty years ago. One died in office, another was assassinated, and the other four resigned.

Senator Works of California will at the next meeting of Congress propose an amendment to the constitution of the United States making the president and vice president elected directly by the people. This is a move in the right direction and will doubtless receive the support of all elements in congress and handed down to the state legislatures for ratification without delay. It was the intention of the framers of the constitution to place the election of these high officials in a body of men who would weigh the qualities of each candidate and select the best man. It was their intention to remove them from party strife, but almost from the first politics has been the chief consideration in the election. At first the legislatures chose the electors, but the people soon demanded the right to select them by direct vote, and the electoral college became only a body to register the will of the people. The people now see no reason why they are not capable of voting directly for the two highest offices, just as they do for others, and thus advance one more step in popular rule.

STAMPING OUT PLAGUE IN HAVANA

Bubonic Plague (Black Death) broke out last summer in Havana, several cases developing before its presence was known. Three hundred years ago, such an occurrence would have been followed by a fearful outbreak of plague, which would have killed from one-quarter to one-third of the people, the only remedy for which would have been charms and incantations. If this had occurred any time before the Spanish-American War, when Havana was under Spanish rule, an epidemic of months' duration would probably have followed. But it is known now that plague is carried by the rat and the flea. Havana is now a modern city with paved streets and an adequate sewer system. Best of all, the health officer, Dr. Juan Gutierrez, is a well known scientific authority on tropical diseases. No time was wasted in processions, charms or relics. Havana was cleaned up and the rats were exterminated. In a recent issue of The Journal of the American Medical Association, Dr. Gutierrez tells how the epidemic was checked. He says that a general order was given to clear all premises of rubbish, refuse and used-up material. For many days the

amount of such stuff, including street sweepings and garbage, carried out to sea in lighters, was increased from the normal daily output of 450 to 2,000 tons a day, with an average of 1,500 tons.

The orders to wash out the floors daily with carbolic solutions for the destruction of fleas were cheerfully obeyed, not only in the infected district, but throughout the city. In the more exposed localities they were carried out by the disinfection brigades, whose work cannot be too highly praised.

A deratization service and rat brigades for the poisoning and trapping of rodents were created. A premium of five cents was paid for each rat. Up to September 3, 17,974 rats were killed. The result was that the plague was quickly stamped out with only the loss of a few lives.

STRAY TOPICS FROM LITTLE OLD NEW YORK

New York, Nov. 23.—It was awful mean of the three learned Justices, sitting in the Court of Special Sessions in Brooklyn, the other day, to disappoint Maud Malone, the militant suffragette by refusing to make a "martyr" of her. Maud, who never overlooks an opportunity to increase her notoriety as a belligerent suffragette, was arrested for disturbing a public meeting during the recent campaign. She attended a meeting which Governor Wilson addressed and interrupted the speaker by demanding from him a public statement concerning his views on woman's suffrage. Governor Wilson declined to be drawn into an argument under the circumstances, but Maud would not give in and remained standing until she was ejected and placed under arrest.

With great cunning Miss Malone planned to make her trial serve the double purpose of increasing her notoriety and making capital for the "Cause." She sent out hundreds of invitations to her "At Court" and tried her best to have Governor Wilson subpoenaed to appear in court at the trial. It was a great disappointment to Miss Malone that Gov. Wilson avoided the subpoena servers by not crossing the state line into New York. This deprived her of her greatest drawing card. There was a big crowd in court, but the spectacular show which Miss Malone had planned for their diversion, did not pan out. The justices refused to take her seriously and turned the whole case into a farce. In the end they found her technically guilty, but refused to impose even the smallest permissible fine upon her, notwithstanding her pleadings to be a martyr for the "Cause," at least to the extent of \$5.

Turn about is fair play, must have thought the rabbit who shot a hunter, in New Jersey, the other day. It sounds like a joke, but the facts in the case are really vouched for, and the unfortunate hunter actually died from the effects of the wounds received. He had placed his loaded and cocked shotgun on the ground while he released the rabbit he expected to shoot, from the trap. The frightened animal, when released leaped upon the gun, touched off both triggers and the double load of shot struck the young hunter. The rabbit escaped.

The luck of intoxicated men in escaping injury is proverbial, but once in a while even a sober man enjoys the most remarkable luck. One of the guards on a train of the Ninth Avenue Elevated owes his escape from death to one of those miraculous cases of good luck. The other morning, while his train was rounding a curve at Greenwich street, the guard fell from the platform of his car to the street, about forty feet below. It so happened, however, that the owner of a barber shop had just moved an upholstered sofa to the sidewalk for a good brushing. The guard landed upon the sofa and, although the piece of furniture broke down under his weight, the cushion broke the man's fall sufficiently to save his life.

After a careful and thorough investigation of all the public and many private schools in this city, Fire Commissioner Johnson has informed the Board of Education that in 587 out of 617 public schools examined the regulations for protection against fire were violated. Similar violations were found in 227 parochial schools and private schools in various parts of the city. Although the violations, in many cases, are not of a very serious nature, they increase the risk and danger in case of fire and the Board of Education is called upon to see to it that the buildings are put in a safe condition and the rules for protection against fire are obeyed.

Judge Swann, of General Sessions, Father James B. Curry, of St. James' church, and State Senator James Foley have formed a triple alliance to fight the cocaine evil, which has as-

sumed appalling proportions in this city during the past ten years. They have begun an energetic campaign with a view of inducing the next legislature to pass a new law which would prove more effective in stopping the sale of cocaine than the law now on the statute book. They claim that the present law is not properly enforced, but that events enforcement would not put a stop to the cocaine traffic, as the penal features of the law are not severe enough. Especially among the criminal classes the habitual use of the drug has greatly increased, and it has been shown that some prisoners who were not cocaine fiends before they were sent to Sing Sing, acquired the habit there.

The wife of Congressman Martin Littleton, of Oyster Bay, must have a deep-rooted grudge against Congressman Jefferson M. Levy, the present owner of Monticello, the former home and burial place of Thomas Jefferson. For more than a year Mrs. Littleton has carried on a campaign for the purchase by the government of Monticello and preserving it as a historical relic for future generations. Through her efforts a bill to that effect was introduced in Congress at the last session and it is expected to come up for final action at the coming session. The Monticello estate has been in the possession of the Levy family for eighty years, and, as the present owner absolutely refuses to sell at any price, an effort will be made to induce the government to acquire the estate by right of eminent domain.

There are some awfully mean persons in this world. The pastor of a

church in Flatbush has been in the habit for years to distribute among the poor of his parish every Christmas nice plump chickens which he had raised for that purpose in his own chicken yard. This year the chicken crop was particularly fine, and the pastor was delighted at the prospect for the coming Christmas distribution. But his hopes were rudely shattered by some mean and conscienceless persons who entered his poultry yard the other night and carried off more than fifty of his plumpest chickens.

ROFF AND COBB CASE NEARS AN END

The Roff and Cobb case has been on trial all day and may possibly go to the jury late in the afternoon. It has been stubbornly fought all the way through. This case closes the criminal docket for the term. Next week the court will take up the civil jury docket.

NOTICE TO TAX PAYERS.

Your 1912 tax was due November 1st, 1912.

If you want to pay your tax in halves without any penalty you will have to pay your first half before the first day of December, 1912, or you will have to pay penalty on the first half from Dec. 2, 1912, until paid.

If the first half is not paid before January 1st, 1913, all your tax becomes delinquent and will all have to be paid at one time with a penalty of 18 per cent per annum from January 1st, 1913, until paid. If one-half is paid before January 1st, 1913 you will have until June 15th, 1913 to pay the last half, without penalty. The law requires each and every tax payer to furnish me with a list of his property when he comes to pay his tax or when he writes to find out what they are, for example; if it is personal property (which means all property other than real estate) give name of town or municipal township you were assessed in. For example: John Smith, personal tax in town of Stonewall, or Fitzhugh township or whatever town or township it might be in.

If you own town lots give me your lot No., Block No. and name of town. It is in or if in some one of the additions, of a town, give name of Addition and town. Example: Lot 1 in Block 2 in Frisco Addition to the town of Francis, Oklahoma.

If you own farm land give me the calls of your land, Sec. No., Township and Range. Example: SW 1/4 SW 4 of Sec. 16, Twp. 2 North, Range 5 East, Fitzhugh Township.

Your 1911 tax receipt will be a good list but check it over and see that all your property is shown on it.

Trusting that each and every tax payer will be kind enough to do as required, I am yours for the very best service I can render you.

RIT ERWIN,

County Treasurer

P. S.—If you don't furnish list as required by law, when you write about your tax your letter won't be answered for I will not know what property you own, and if you don't have a list of your property when you come to pay your tax, the man who has his list will be waited on first and I will wait on you when there is no one waiting. 8tw-26td

Quick Retort Pleases Judge.

United States Judge Emory Speer of the Southern district of Georgia recently had before his court a typical Georgia mountaineer on a charge of illicit distilling, says the Philadelphia Record.

What's your name demanded the Judge.

Joshua, Jedge, drawled the prisoner.

Joshua, who made the sun stand still, shouted the judge in amusement at the laconic answer.

No, sir, Joshua who made the moon shine, answered the quick-witted mountaineer.

And it is needless to say that Judge Speer made the sentence as light as he possibly could.

Two high class pictures: Woers of Mountain Kate and Their New Minister. The first is a drama of the forest, and a real wild west specialty. The latter is a fine comedy. Don't miss it.

Editor McGowan of the Stonewall News was a caller at the News office this afternoon. He impressed us as being a hustler and a man who is an advantage to any community. Stonewall is fortunate in having him as a citizen, and, if those people give him proper support, he will do a great deal to put the town on the map. Mr. McGowan was the publisher of Gov. Haskell's paper, the New State Tribune for a time, and was secretary of the election board of Pittsburg county.

The Colonel's Ward is a big two reel feature that will be seen at the DeSota this evening. A wonderful pioneer and military production full of excitement and thrills. A hundred scenes, including a military execution. William and Rose will be there, too, and will make you feel like you were in a hippodrome.

HIGH SCHOOL WINS TWO VICTORIES

This afternoon the high school football team met the one from Maud and in a hard fought game came off victorious by a score of 12 to 6.

The Francis basketball team was scheduled to play the high school, but failed to put in an appearance. The high school was not to be disappointed, however, and a game with the second team of the normal was speedily arranged. It resulted in favor of the high school, the score being 13 to 3.

COTTON PASSES 9,000 MARK

Cotton continues to roll in from some where, although many farmers say there are about through picking. This afternoon the yard receipts were 8,007, and the round bale gin's output of 2,190, equivalent to 1,095 square bales, gives the grand total of the season 9,102 bales. It is now certain that the receipts for the entire season will not fall below 11,000, and it appears that they may go considerably beyond that mark.

The price has been a trifle better today than for some time past, some sales on the street being reported at 12.40.

A YOUNG MAN

Working as a day laborer at the Oklahoma Portland Cement Company's plant was in our bank today and presented our time certificate of deposit payable to his order, for \$2600, which we had been carrying for the past six months, and on which we had been paying him interest.

To this accumulated interest, he added his savings for the past six months, and took from us a new certificate for \$2,800, due in six months from date.

This young man has been doing this for several years. Beginning with his small savings several years ago, he has added to his certificate each six months until it has now reached the tidy sum of \$2,900.

This young man's earnings are probably no more, if as much as yours. Would it not be a wise thing for you to adopt the same policy? Start today the plan of spending less than you make, and putting your savings into a time certificate. We would be glad to issue YOU one for any amount.

GUTHRIE BOOSTERS ACCEPT RESULT OF CAPITAL FIGHT AND ISSUE STATEMENT.

Guthrie, Okla., Nov. 23.—(Special)—Following a big booster dinner attended by 200 business men last night with which Guthrie celebrated the result of the recent capital campaign by organizing for active work in advertising and pushing the city, starting new industries, and building up those the city already has, the capital campaign committee of the Chamber of Commerce have issued the following statement:

"Guthrie, however, accepts the announcement desult, believing that the people who voted 'No' did so upon Oklahoma City's renewed promise of a free million dollar capital building, free quarters for the state until the building is completed and payment of moving expenses, and are now waiting for them to fulfill their promises. So are we.—The Guthrie Capital Committee."

A VISIT TO THE PENITENTIARY

R. F. Johnson returned this morning from a trip to McAlester in course of which he visited the state penitentiary. He is loud in his praise of the way the institution is managed. In the first place, everything is clean and sanitary, and every detail looking to the comfort of the prisoners is carefully looked after. The men are given all the privileges possible and are permitted to spend a part of their time out of doors in a ten acre enclosure. Only eight hours of work is exacted, and the men are not rushed at that. The prisoners make shoes, garments and other things needed in the institution, and likewise operate a large farm, laundry, etc. It is something of a job to feed this crowd, 1,400 pounds of flour per day being required, to say nothing of other items. The men seemed contented as well as men deprived of their liberty could be.

Mr. Johnson also stated that the management of the prison show visitors every possible courtesy and give them ample freedom in conversing with the prisoners.

Toledo, O., Nov. 23.—A big aid in the effective handling of the immense freight traffic between Toledo and Detroit will become effective tomorrow, when the Michigan Central and Lake Shore roads will begin a joint use of tracks between the two cities.

Both roads are single divisions. By joint use each road will have the benefit of a double track system, one track to be used exclusively for north bound and the other for southbound business.

Coal "Waste."

The production of anthracite in Pennsylvania includes an appreciable quantity of usable fuel recovered from the old culm banks by washeries, and the unsightly monuments to the wasteful methods of early times are disappearing from the landscape in the anthracite region. The quantity of coal recovered in the 22 years since the first washery was constructed in 1890 has amounted to about 50,000,000 long tons, considerably more than the total production of anthracite at the beginning of the period. In 1911 the washery product amounted to 4,136,044 long tons. In addition to the coal recovered from the culm banks, 94,647 long tons in 1911, and 91,823 tons in 1910, were recovered from the bottom of Susquehanna River by dredges.

In the bituminous regions the principal use of washeries is to improve the quality of the slack coal used in the manufacture of coke by reducing the ash and sulphur, although con-

siderable quantities, particularly in Illinois, are washed in the preparation of sized coal for household use. The quantity of bituminous coal washed at the mines in 1911 was 12,543,114 short tons. The washeries yielded 10,999,481 tons of cleaned coal and 1,543,633 tons of refuse.

Owing to our open Fall a great many of us have neglected to get that new suit we have been promising ourselves, and now old man Winter is upon us, and the worst of it is that he gave us no warning that he was coming until he was here and now we are sore at the world because we are cold, but brace up, for it is not too late yet, for you still have time to give us that order and we will get it out in record time, so you see there is no reason why you should freeze after all.

Remember that we make your suit right here in our shop that it does not have to go out of town to be made and that you can come in and watch it through every stage of construction.

Your suit should be built just as careful as your home and you should be just as much interested in its construction. You watch the construction of your home because you are going to live in it; because you want it built strong and lasting; because you want it to be of a pleasing appearance and because you want it built according to your style. You should be interested in the building of your suit, because you are going to live in it; you want it built strong and lasting; you want it to be of nice appearance and because you want it built according to your style. to be held on the battlefield next July filed a report with the governor today, asking that an appropriation of \$25,000 be made for the event. Of this amount about \$19,000 will be needed to cover expenses of the state's delegation to Gettysburg and expenses of the commission while at work. It is planned to take a battalion of the National Guard, life and drum corps and all veterans of both the Northern and Southern Armies participating in the battle, and who now reside in Oklahoma. Only the expenses of those unable to pay them will be met out of the State fund, and this is figured by the commission to be about 100 veterans. The party is expected also to include five members of the governor's staff, color guard for the state flag and members of the Oklahoma commission.
Gov. Cruce has promised to lay the matter before the legislature, and urge an appropriation, in which amount he did not indicate.

NORMAL NEWS.

The freshman, sub-freshman, and first year classes have organized boost ing clubs for the purpose of yelling at the game Thanksgiving with Duran'. This movement of class co-operation has been planned with the expectation of getting the student body to take more interest in the school games. From present indications, it is the most effective movement yet suggested for getting the students to work in harmony.

Everybody is rejoicing over the outcome of the game yesterday. We were expecting a victory, but the score was even greater than most of the students expected. Maud Donaghey, Capt. MacMillan, Ralph MacMillan, Fen'em and Ben Tolbert showed some of the finest work ever seen on the home ground. Tolbert's kick and line bucks were features. Then, too, the way Ben tore the opposing line into threads was startling.

Prof. Perkins has obtained permission from the board of education to be away from school for a year, and will leave about Christmas for the University of Chicago where he will take the master's degree in a few months. The school regrets to lose Mr. Perkins at this time, but rejoices to know that he will be back for the summer term. Miss McClain will take Mr. Perkins' place as supervisor of the training school.

Mission's Charities Conference.

Hannibal, Mo., Nov. 23.—Several hundred visitors arrived here today to attend the annual meeting of the Missouri State Conference of Charities and Correction. The sessions will last four days, during which time the conference will discuss a wide variety of subjects pertaining to the care of the sick and dependent, the correction of the delinquent, the reform of the criminal, prison management, woman and child labor and the work of organized charity in general. Jacob Billikopf, superintendent of the Jewish educational institute of Kansas City, is president of the conference, and C. D. Hill, president of the Kansas City board of public welfare, is the secretary.

WHAT SAVED HER LIFE

Mrs. Martin Tells About a Painful Experience that Might Have Ended Seriously.

Riversville, W. Va.—Mrs. Dora Martin, in a letter from Rivesville, writes: "For three years, I suffered with womanly troubles, and had pains in my back and side. I was nervous and could not sleep at night.

The doctor could not help me. He said I would have to be operated on before I could get better. I thought I would try using Cardui.

Now, I am entirely well. I am sure Cardui saved my life. I will never be without Cardui in my home. I recommend it to my friends."

For fifty years, Cardui has been relieving pain and distress caused by womanly trouble. It will surely help you. It goes to the spot—relieves the trouble—relieves the symptoms, and drives away the cause.

If you suffer from any symptoms of womanly trouble, take Cardui. Your druggist sells and recommends it. Get a bottle from him today.

Marriage Unites Rich Families.

Philadelphia, Pa., Nov. 23.—After a courtship that proved the truth of the old adage that "the course of true love never did run smooth," Miss Dorothy Wilbur of this city today became the bride of Richard McSherry, well known clubman. The engagement of the couple was first made known two years ago. Last April the father of the bride-to-be announced that it had been broken. No reason was given and friends were disappointed, for Miss Wilbur was one of the most popular and beautiful young women in Philadelphia society. But Mr. McSherry persisted in his courtship, with the result that the engagement was renewed and the wedding date fixed. The bride is the daughter of Rollin C. Wilbur, one of Philadelphia's wealthiest citizens, while Mr. McSherry is the son of an equally wealthy resident of Baltimore.

ENDORSED AT HOME

Such Proof as This Should Convince Any Ada Citizen.

The public endorsement of a local citizen is the best proof that can be produced. None better, none stronger can be had. When a man comes forward and testifies to his fellow-citizens, addresses his friends and neighbors, you may be sure he is thoroughly convinced or he would not do so. Telling one's experience when it is for the public good is an act of kindness that should be appreciated. The following statement, given by a resident of Ada adds one more to the many cases of Home Endorsement which are being published about Doan's Kidney Pills. Read it.

M. R. King, merchant, Townsend send avenue and Eighteenth street, Ada, Okla., says: "Doan's Kidney Pills are good and I recommend them for use in cases of backache and kidney trouble. I have found that this remedy lives up to all the claims made for it and I gladly recommend it."

Governor to Lead "Turkey Trot."

Cuero, Tex., Nov. 23.—The governor of Texas leading a "turkey trot" is the unique spectacle which the people of this vicinity expect to witness the first of the week. The "turkey trot," however, will not be of the Newport variety, but a parade of 10,000 gobblers doomed to grace as many tables throughout the land the coming Thanksgiving and Christmas. Cuero is in the heart of what is declared to be the greatest turkey growing district in the world, and the annual movement of the birds to market about Thanksgiving time is a sight long to be remembered. Farmers drive them in on horseback by hundreds for shipment. In celebration of the unusually large crop this year Governor Colquitt has promised to head the turkey parade with his staff in full uniform.

THE FIRST GRAY HAIR SIGN OF AGE

Easy Way to Preserve Natural Color of the Hair and Make It Grow.

A harmless remedy made from common garden sage, quickly restores gray hair to natural color. The care of the hair, to prevent it from losing its color and lustre, is just as important as to care for the teeth to keep them from discoloring. Why spend money for cosmetics and creams to improve the complexion, and yet neglect your hair, when gray hair is even more conspicuous and suggestive of age than wrinkles or a poor complexion? Of the two, it is easier to preserve the natural color and beauty of the hair than it is to have a good complexion.

All that is necessary is the occasional use of Wyeth's Sage and Sulphur Hair Remedy, a preparation of common garden Sage and Sulphur, combined with other valuable remedies for dry, harsh, faded hair dandruff, itching scalp and falling hair. After a few applications of this simple, harmless, remedy, your hair will be gradually restored to its natural color, in a short time the dandruff will be removed, and your hair will no longer come out, but will start to grow as Nature intended it should.

Don't neglect your hair, for it goes further than anything else to make or mar your good looks. You can buy this remedy at any drug store for fifty cents a bottle, and your druggist will give your money back if you are not satisfied after using. Purchase a bottle today. You will never regret it when you realize the difference it will make in your appearance.—Agents, Gwin & Mays Drug Co., Ada, Okla.—adv.

TO STUDY EUROPEAN CREDIT SYSTEM

Spokane, Wash., Nov. 23.—Farmers of Washington and Idaho are uniting through the Farmers' Educational and Co-operative Union and the grange, to have the legislatures appropriate money to send men to Europe to study rural credit systems. "We know that in France and Germany farmers, through co-operation, can borrow money for 3 or 4 per cent interest," says L. C. Crow, president of the union. "In America we average 8 per cent, yet our security is as good as theirs."
